## MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pain in the head, back, breast, shoulders, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangement, and can be corrected. The medicinal function should operate positively.

Wine of Cardui

It makes menstruation painless, and regular. It puts the delicate maternal organs in condition to do their work properly, and that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs 75 cents at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Dr. B. E. Wilson, M.D.

He has treated at monthly intervals for thirty years, and has never been known to fail.

Where Earthquakes Abound.

There is a place in California where earthquakes are said to be kept on a register. The spot is at the headwaters of the Kowwah, at the border of Fresno, Tulare and Inyo counties. You can't hire an Indian or a Mexican to go near that locality. They say it is the home of the evil spirits. The country round about is rocky, mountainous with deep valleys and precipitous cliffs. Shakes, tremors, earthquakes, and quakes continually and hideous rumbles and sounds seem to have made the neighborhood their parish, for they are there in every palpable vibration.

But in addition to these attractions the region may be said to be in a state of perpetual earthquake. Frequent booming tremors, and quakes continually and hideous rumbles and sounds seem to have made the neighborhood their parish, for they are there in every palpable vibration.

Gum Shoes for Horses.

Horses whose owners are rich enough may wear rubber-soled shoes. The entire shoe is about three times as thick as the ordinary steel or iron shoe, but it is not heavy, as a large portion of it is hollowed out to make a groove in which to set the rubber. The shoe is made of very rubber and is about half an inch thick. The inner circumference of the shoe is fitted with thin prongs, which are turned into the rubber and serve to hold it in place. The great trouble with the shoe is that the holes for the nails are so near the edge that in many cases it is almost impossible to get the shoe on the horse's hoof. When the prongs are turned into place the rubber shoes about an eighth of an inch and the shoe, as it is worn away, new rubber can be substituted, or the old tire allowed to remain. In either case you may have found by using that the shoe will wear as long as the old shoe.

Daniel Boone's Gun.

"I tell you," Daniel Boone, of Middlebury, Vt., has an old duck rifle that belongs to Daniel Boone when he came to Kentucky in 1775. The rifle was bought on loan from William Wrenn, one of Boone's men, who settled near Charlottesville. That was exactly fifty years ago. The barrel measured one foot one inch, and the entire gun six feet one inch. It was with this gun that Boone killed his first deer. The rifle was used by Boone for many years, and the Indians had been there before them and stolen and destroyed the rifle of skin. One of the party carried on a tree near by the rifle and Boone's rifle was found in the tree. Boone's rifle was found in the tree. Boone's rifle was found in the tree.

Forrest Man in the World.

Ex-Governor Foster, knight, statesman, scholar and always a friend to the masses, presented Hon. W. J. Bryan to the thousands who assembled at Lebanon to hear him on the "most man of the world." Mr. Bryan will never receive a higher tribute.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and it is with this purpose in view that it was created. The first way is to let the urine flow out of the bladder. The second way is to let the urine flow out of the bladder.
